DUST COVERS for CARTER SINGLE POINT UNDERWING FUELING NOZZLES

SPR-C

- ➔ SPR-C fits Carter Nozzles including all Military D-1 & D-2
- ➔ UV · Fuel · Chemical resistant
- ➔ Flame retardant · Non-combustible
- ➔ Exceeds FAA and Military standards
- ➔ Seals against external water and debris plus checks internal residual fuel leaks
- ➔ Protects against nose seal damage
- ➔ -20° F to 200° F Service Integrity

SPR-C-200

- ➔ SPR-C-200 fits Carter 64200 nozzle
- ➔ Complete with stainless lanyard (Replacement lanyard available)
- ➔ Durable impact absorbing Urethane-polymer
The SPR-C200 is actually the same dust cover as the SPR-C except for the lanyard. Since the handles are completely different there is no way to attach the lanyard to the 64200 Series nozzle so a different design was needed. Result - a loop lanyard that attaches below the handle (see SPR-C200 picture above).
- ➔ Approved by all major oil companies, airlines and fuel service operations
- ➔ 2 year warranty (lanyard not included)
- ➔ Please specify color when ordering:
SPR-C: Black or Red
SPR-C-200: Black or Red
