SAFETY SEAL SPILL CONTROL PRODUCTS DrainProtector® II Safety Seal

The fastest and most economical way to respond to industrial spill incidents. These flexible, chemical resistant polyurethane products can be used over and over again.

LIGHT WEIGHT AND EAST TO USE:

The DrainProtector II is made of a solid tough polyurethane requiring no reinforced fillers making it light weight and easy to handle.

CHEMICALLY RESISTANT: The polyurethane DrainProtector II is compatible for use with a wider range of chemicals and substances than rubbers and plastics. Plus, it's environmentally safe.

REUSEABLE: After using, simply wash the DrainProtector II, replace the plastic film, and return to the container.

REVERSIBLE: Since the DrainProtector II is tacky on both sides, either side can be used to form a tight seal to block out liquids.

LARGE STOCK: Square and rectangles can be made in custom sizes at the manufacturers US plant.

Squares	Rounds	Rectangles
18" x 18"	12"	18" x 60"
24" x 24"	20"	36" x 60"
36" x 36"	30"	
42" x 42"	42"	
54" x 54"
