

FJORD AVIATION PRODUCTS FHP-XXX Hose Protector Bands are made of abrasion resistant and UV resistant urethane polymer. They are designed to fit around the hose every 3 to 4 feet lifting that portion of the hose slightly off the ground protecting the hose from wear when dragging across the ramp, especially at fillstands, offloading headers and long hose lines. **BONUS:** they reduce frictional drag, making dragging long heavy hoses easier.

FEATURES: UV, Fuel, Oil, and Chemical Resistant
Flame Retardant / Non-Combustible
Temperature Resistant from -20° to 200°F
1 year warranty (cable ties not included)

COLOR: High Visibility Orange (enhances visual safety)

These Hose Protector Bands are made to order and fit hoses from 1.5" ID to 4.0" ID. The exact part number is determined by the size of the hose, for example if Hose Protector Bands are to be used on a 3.0" ID hose the part number would be FHP-3.0 (FHP-XXX). Each Hose Protector Band comes with 2 cable ties for securing the band to the hose as well as detailed installation instructions. The installation instructions can also be found on our website. Stop the wearing and prolong the life of your hose with **FJORD AVIATION PRODUCTS FHP-XXX Hose Protector Bands.**
