

FJORD AVIATION PRODUCTS SFN-1125, SFN-1625, SFN-1825 and SFN-1.5J Dust Covers are made of high impact absorbing urethane and designed for the EBW / Morrison overwing aviation fueling nozzle spouts. The dust covers meet and exceed FAA, Military and Commercial standards for protection and standard sealing qualities. Another plus is that since the dust covers and lanyards are made of urethane there is no scratching, scraping or marring of any surface the fueling nozzles might come in contact with.
