## THE DUAL PURPOSE SFN-1125D 1"Round Nozzle Spout Dust Cover

Diesel Nozzles Series  
OPW, Catlow and Husky

**Wow** - Another Application - Fjord Aviation Products **SFN-1125D**. This dust cover originally designed to fit the 1" Round Nozzle Spouts of the EBW and Morrison aviation series over wing nozzles to keep air, water and dirt from entering the fuel system can now be used to do the same for the 1" Diesel Servicing Nozzles (without the spout ring) of OPW, Catlow and Husky.

As for durability the **SFN-1125D** is non-metallic. It is made of a high impact absorbing urethane polymer which is chemical, UV and fuel resistant in addition to being flame retardant from -2° to 200°F. It meets and exceeds FAA, Military and Commercial standards for protection and standard sealing.

EBW and Morrison 1"  
round nozzle spouts

So whether you are using the diesel nozzle series of OPW, Catlow or Husky that has the 1" nozzle spout (without the spout ring) or the aviation nozzle series of the EBW or Morrison that has the 1" nozzle spout; the go to Dust Cover - **SFN-1125D** is the answer in keeping air, water, dirt or other contaminant intrusion from entering your fuel system helping to maintain *clean dry fuel*.
